PROFILE

Product builder and spatial data scientist with experience across AI products, cross-border business development, and technical delivery. Co-founder of William AI, combining hands-on software development with user discovery, community building, and product-led growth.

EDUCATION

University of Southern California (USC)

M.S. in Spatial Data Science

Los Angeles, USA

Jan 2026 - Present

Hangzhou Normal University

B.S. in Geographic Information Science

Hangzhou, China

Sep 2021 - Jun 2025

PROFESSIONAL EXPERIENCE

UniUni

Specialist of Region Expansion & CDC (Intern)

Remote

Jul 2026 - Present

- Built a cross-border prospecting pipeline by screening approximately **5,000 logistics companies** across North America and Europe and identifying decision-makers in operations, supply chain, and partnerships.
- Executed approximately **3,500 targeted outreach attempts**; converted all 3 responses into discovery meetings, achieving a **100% response-to-meeting conversion rate**.
- Qualified partnership interest and documented account intelligence to support regional expansion and last-mile logistics business development.

William AI

Co-founder & Product Lead

Los Angeles / Remote

May 2026 - Present

- Co-founded an AI-powered emotional wellness product that combines guided AI support with community-based engagement.
- Led the product from concept through **Alpha testing**; owned requirements, software development, user feedback loops, community operations, and the post-launch growth roadmap.
- Built a pre-launch community and acquired **2,000+ waitlist signups** ahead of public release.

University of Southern California - Spatial Sciences Institute

Graduate Research Assistant

Los Angeles, USA

Mar 2026 - Present

- Develop interactive GIS web applications using React and Mapbox/ArcGIS APIs to visualize complex spatial datasets for urban research.
- Architect spatial data pipelines and optimize PostGIS/PostgreSQL databases for large-scale geographic features.

Huaxin Consulting Co., Ltd.

Product Manager / Project Manager

Hangzhou, China

Jun 2025 - Dec 2025

- Led the end-to-end lifecycle of 3 digital products, achieving **100% on-time delivery** and **90% client satisfaction**.
- Seconded to China Telecom AI Co. for the Xirang MaaS platform; resolved **12+ critical** compatibility and permission issues and accelerated module integration by 3 days.
- Delivered English technical pitches to international stakeholders and secured **2 cooperation agreements**.

EARLIER EXPERIENCE

- Huaxin Consulting Co., Ltd.**
Data Engineering & AI Product Intern

Hangzhou, China
Dec 2024 - May 2025
- Designed tokenization and cleaning logic for a Government GenAI model across **2,000,000+ records**, improving Precision and Recall by 12%.
 - Developed a distributed Java crawler for 31 bidding platforms and Python validation scripts with **<1% amount error** and 90% clause coverage.
- Ouhai Surveying and Mapping Institute**
Spatial Data Analyst Intern

Wenzhou, China
Jun 2024 - Sep 2024
- Processed **100GB+** of multi-source satellite remote sensing data using Python and produced 20+ visualization dashboards.
 - Built ArcGIS-based spatial models that increased land-area calculation efficiency by **30%** for government planning decisions.

SELECTED PROJECTS

- Telecom "Xirang" MaaS Platform**
Technical Project Manager

AI Infrastructure
Aug 2025 - Nov 2025
- Co-led adaptation between the MaaS layer and AI infrastructure; managed development sprints across 8 workstreams and delivered key modules 3 days ahead of schedule.
- Marine Eco-Remote Sensing Big Data System**
Core Member / Product Manager / Data Analyst

National Grand Prize
Jun 2024 - Jan 2025
- Improved LSTM forecasting accuracy by **10%**, processed 100GB+ of spatial data, and coordinated cross-functional product delivery.
 - Won **1st Place** in the 19th Challenge Cup Special Competition among 7,000+ national teams.
- Intelligent UAV Collaborative Management System**
Team Leader / Product Manager

National Third Prize
Jul 2023 - Jun 2024
- Led market research, system architecture, and the product roadmap for multi-UAV coordination; ranked in the top 3% of 8,801 national teams.

RESEARCH & PUBLICATIONS

- Co-author:** "Assessment of Satellite Products in Estimating Tropical Cyclone Remote Precipitation over the Yangtze River Delta Region," *Atmosphere*, 2024 (SCI, IF: 2.9).
- Co-author:** "Multi-source Remote Sensing Monitoring Methods for Water Quality in Wetland Lake Chains...", *Journal of Hangzhou Normal University*, 2024.
- Software copyrights:** Lead author of 3 registered remote-sensing software systems covering algae bloom inversion, water color index extraction, and aerosol optical depth inversion.

SKILLS

- Product & Growth:** Product strategy, requirement engineering, user discovery, Alpha testing, community operations, product-led growth
- Business Development:** Market research, account intelligence, decision-maker mapping, targeted outreach, lead qualification
- Data & AI:** Python, SQL, LSTM, predictive modeling, data cleaning, GenAI product development
- Geospatial:** ArcGIS Pro, ENVI, remote sensing, digital twin, spatial analysis
- Languages:** Native Mandarin; English - TOEFL 102, GRE 326
