PRODUCT MANAGEMENT | USER GROWTH | DATA SCIENCE | GO-TO-MARKET

Profile: USC Spatial Data Science master's candidate working across AI product management, GTM, user growth, and analytics. Delivered 3 enterprise AI/data products; grew the USC Chinese Program's Instagram by 270 organic followers in two months; one independently produced RedNote post earned 5K+ likes.

Education

University of Southern California (USC) — Los Angeles, CA
M.S. in Spatial Data Science | GPA: 3.9/4.0 — Jan 2026 - Dec 31, 2027 (expected)

Hangzhou Normal University — Hangzhou, China
B.S. in Geographic Information Science | GPA: 3.75/4.0 — Sep 2021 - Jun 2025

Work Experience

Huaxin Consulting Design & Research Institute / China Telecom AI — Hangzhou / Beijing, China
Product Manager / Technical Program Manager (Full-time) — Jun 2025 - Dec 2025

- Owned customer discovery, requirements, prioritization, acceptance, and iteration for **3 enterprise AI/data products**, achieving **100% on-time delivery** and **95% client satisfaction**.
- Defined workflows for an AI-assisted tender evaluation system, public-sector assessment cloud, and industrial inspection solution, turning complex business and technical needs into buildable modules.
- Coordinated **8 engineering workstreams** on China Telecom's Xirang MaaS platform; resolved **12+ integration blockers** across APIs, data flows, and permissions and delivered a critical module **3 days early**.
- Presented technical and commercial value in English to Saudi and Brazilian stakeholders, supporting **2 international cooperation agreements**.

Spatial Sciences Institute, USC — Los Angeles, CA
Graduate Research Assistant — Mar 2026 - Present

- For **Compete4LA**, cleaned and classified **51,000 Los Angeles business records**, built business-filtering functionality, and improved filtered-data downloads for supplier discovery.
- Built **2 interactive Web GIS tools** using React, Mapbox/ArcGIS, and PostGIS for LA 2028 venue-accessibility research and decision support.

WoafMeow — Overseas Markets / Remote
GTM & International Growth — 2026 - Present

- Support overseas GTM for a funded senior-dog-care startup with a **13,000+ pet-owner community**; segment prospective users using care needs and feedback.
- Track website click-through and Discord-to-Coffee-Chat registration conversion; A/B test growth messages and feed recurring customer concerns into product and positioning decisions.

Playlovin — Startup / Remote
Product Manager & Go-to-Market — Oct 2026 - Present

- Own initial feature design and iteration for an **in-development AI video-ad generation product**; turn research with hardware users into product requirements and early GTM priorities.
- Organized **3 in-person coffee chats and user-research sessions** with hardware-sector users; identified **4-5 interested prospects** and documented needs for feature refinement and early market positioning.

USC East Asian Languages and Cultures — Los Angeles, CA
Department-wide Graduate Teaching Assistant — 2026 - Present

- Support multi-instructor program operations and student communications; manage the Chinese Program's official Instagram, adding **270 organic followers in two months** through content alone.

Work Experience (continued)

Uni Express Inc. (UniUni) Los Angeles / Remote
Regional Expansion & Customer Development Intern Jul 2026 - Sep 2026

- Researched **5,000+ logistics companies** in North America and Europe; segmented **3,500 target accounts** by region, operating model, and partnership fit and mapped relevant decision-makers.
- Produced a Europe/Australia e-commerce and parcel-logistics market report; generated **11 positive replies** from targeted outreach and prioritized follow-up opportunities.

Kimber Health Los Angeles / Hybrid
Campus Growth & Business Development Ambassador Jan 2026 - Feb 2026

- Ran campus acquisition across USC, UCSD, and UCI, built student communities totaling **1,000+ members**, and tracked referral channels that generated a **15% attributed purchase conversion rate**.

Huaxin Consulting Design & Research Institute Hangzhou, China
Intelligent Solutions Engineer Intern Mar 2025 - May 2025

- Translated public-sector requirements into module checklists for **2 projects** and conducted product demonstrations that generated **3 qualified government leads**.

Huaxin Consulting Design & Research Institute Hangzhou, China
AI Development Engineer Intern Dec 2024 - Mar 2025

- Built cleaning and tokenization workflows for **2M+ government GenAI records**, improving precision and recall by **12%**; developed Java collection across **31 procurement platforms**.

Ouhai Surveying and Mapping Institute Wenzhou, China
Spatial Data Analyst Intern Jun 2024 - Sep 2024

- Processed **100GB+ satellite imagery**, built **20+ analytical dashboards**, and automated ArcGIS land-area calculations for a **30% efficiency gain**.

Leadership & Independent Growth

- **USC SESE, Co-founder & Vice President:** Built a 20-person operating team and coordinated recruiting, partnerships, and events connecting students with founders and employers.
- **RedNote Content Growth:** Independently run a content channel; multiple posts exceeded **10K views**, and one earned **5K+ likes**. Use engagement signals and audience feedback to refine topics and messaging.

Selected Projects, Research & Recognition

- **Marine Eco-Remote Sensing Platform:** Analyzed 100GB+ spatial data and improved LSTM forecasting accuracy by 10%; won a national grand prize (top 1% among 7,000+ teams).
- **Multi-UAV Coordination:** Led product requirements, workflow design, and system architecture for emergency-response coordination; national third prize (top 3% among 8,801 teams).
- **Seattle Collision Analytics:** Cleaned and explored 16,608 crash records; built an interactive dashboard with KPI, temporal, and spatial filters and designed a predictive-model interface.
- **Research/IP:** Co-authored 2 remote-sensing papers in 2024; lead author on 3 registered remote-sensing software copyrights.

Skills

Product & Growth: Customer discovery, ICP segmentation, user research, PRDs, prioritization, A/B testing, conversion funnels, content operations, GTM

Data & Technical: Python, SQL, R, Excel/Google Sheets, product analytics, data cleaning, PostgreSQL/PostGIS, JavaScript/React, ArcGIS, Mapbox

Languages: English; Mandarin Chinese
